EMERGING IT

www.emergingit.com.au

The Essential 8 Managed Services

Is your business compliant with the Australian Cyber Security Centre's IT Security Framework?

The Benefits

Stay Updated and Secure

Regular updates and security measures ensure your systems are always protected against the latest threats.

Proactive Vulnerability Management

Vulnerability management and remediation help identify and address security weaknesses before they can be exploited.

Align with the ASD E8 Compliance

Our plan aligns with Australian Government guidelines and regulatory requirements.

Strategic Cyber Security Planning

Regular reviews and updates to your cybersecurity strategy, guiding you every step of the way.

Business Cost Savings

Save on insurance premiums and avoid the costs associated with data breaches, such as fines, legal fees, and recovery expenses.

Build Trust with Prospects and Customers

Show customers and prospects that you invest in data protection.

Core Services

ASD Essential 8 Assessment

Based on Australian Government guidelines, evaluate your security posture.

Third-Party Application Patching

Keep your non-Microsoft applications secure and up-to-date.
